In the first of the letters under original the Excise Commr reports that the cultivation of gaija by the ryots and its purchase from them has not turned out a success and that it will never be a success. He therefore recommends the cultivation of gaija departmentally. He selects for the purpose the Dehwal farm which is now under the charge of the Agrl Dept. Mr Lehman & Mr Razvi are of opinion that the said farm is best suited for the purpose. Perhaps the Agrl Dept has no objection to give away the farm to the Excise Dept. Mr T. M. B. is consulted on this point.

of the promotion to Mr Rozario

Mr Rozario was formerly
Excise Insp^r in charge of the Central

present proposal is to put him

maybe ~~for~~ appointed as recommended
by the Ex-Comm^{tee}. In another file
it has been suggested that he may
also be put in charge of an Excise

Excise Comm^{tee}.

The question of good undertaking
Janja cultivation is also an
important one, as the existing
arrangements for the supply
of Janja are not very satisfactory.
~~It is so~~ The Ex-Comm^{tee} suggests
that the Hebbal Farm lands might
be used for Janja cult^{ure} & the
suggestion requires consideration
in view of the revision of the ag^{ri}

not available suitable land
can be easily obtained near
Bangalore. If the proposal is
accepted the Ex-Comm^{tee} might be
asked to furnish details of cost &c

P.S. His request to have the Hebbal farm made available for this purpose is also a point for consideration.

It is not likely that the Hebbal farm will become available for Sanja cultivation in any case. The question of the re-organisation of the Agr. His Highness the Maharaja of Mysore,

Sir,

I have the honor to bring to the notice of Government that the present arrangements for supervising the work at the Distillery cannot be ~~werked~~ said to be working satisfactorily and I would beg to propose certain changes. Mr. Rozario who is now District Excise Officer, Bangalore District, is the only man in the Department who can be depended upon to carry on this work satisfactorily and his present multifarious duties do not allow him sufficient time to devote to this very important duty and on which it is generally recognised nearly the whole of the Excise revenue depends and which fact was demonstrated a very short time ago when by the introduction of certain material by the Contractor-s for the purpose of distillation, the arrack so distilled was of an inferior quality and the sales dropped immediately. This would not have happened had Mr. Rozario been in full time charge. Again the method of growing ^{Ganja} and purchasing it from the ryots has not turned out a success and never will be one as although the ryots know how to grow Ganja they cannot be induced to remove the male plants in time and so spoil the whole crop; during the whole of this season when I have frequently visited the Ganja under cultivation, I have invariably found that these plants have to be removed by the Government agency who are merely placed there as watchers but who really had to do a great deal of manual labor. It was in vain that the ryots were repeatedly warned that they

2

they would receive low prices for inferior Ganja, and the result now is that they are dissatisfied with the prices offered them and it is doubtful whether they will take it up again next year. I would therefore beg to propose that from next year Government undertake the growth of Ganja on their own farm and under their own agency ; by this means we shall save a great deal of expense, grow much better Ganja and leave it under better supervision. To carry this out I would propose to rent a suitable piece of land in a suitable locality and place Mr. Rozario in charge in addition to his duty as Distillery Officer. Again I am of opinion that the Excise District Office Kolar requires more time to supervise the Gold Fields section and with that view I would beg to propose that he be relieved of the important Taluq of Goribidnur and to tack that Taluk on to the Bangalore District, as it can more easily be worked from Bangalore than Kolar.

This would mean the introduction of another District Excise ~~Office~~ Officer, but although the cost may appear to be excessive in the first place I am convinced that a better supervision of the Distillery and Ganja cultivation will in the end be more profitable to Government. If these proposals are approved of I will make the necessary provision in the budget.

Sir,

With reference to my letter No. 7780 dated 19th March 1908 bringing to the notice of Government the necessity of Government growing their own Ganja in future instead of depending upon the ryots, I have the honor to state that I am ~~afraid~~ informed that the farm now made by Dr. Lehman at Hebbal will shortly become vacant and if such is the case and if Government have no better use for it I would beg to propose that the same may be made over to this department for the purpose of growing Ganja. I may add that I inspected this land this morning in company with Dr. Lehman and Mr. Rozario District Excise Office Bangalore and we came to the conclusion that the land and localities are well suited for the purpose.

SUBJECT

It is stated that the ryots know how to grow Ganja but that they cannot be induced to remove the male plants in time and that their indifferent attention to this important point in growing Ganja results in making the quality of Ganja ^{grown} very inferior. Repeated warnings that they would receive low prices for the inferior Ganja grown by them appear to have had no effect on the private cultivators and it is repeated that they feel dissatisfied with the prices given for Ganja of poor quality produced by them. And it is also feared that they may not undertake to cultivate Ganja every year. Accordingly the Enclave Committee proposes that Govt. may, in future arrange for growing
